MG-PC Series

Metal Graphics - Precision Cut

Precision cut from solid metal plate, using state-of-the-art technology with hand-crafted finishes. Cut letters are an excellent option when unique materials, finishes, and ornate or intricate forms are required.

Material Options: Aluminum, Brass, Bronze, Copper, Stainless Steel & Painted Metal.

Sizes Range: 1" to 24"

Thickness Range: 1/8" to 1/2"

Finishes: Satin #4 & #6, Mirror #8, Chrome Plate, Oxidized, Patinas, Polyurethanes, Anodized Clear, Custom Metals, Textures and Patterns.

Channel Letters

Channel Letters incorporate Neon or LED light sources and are available in two styles.

Standard: U-channel base with white or colored acrylic faces.

Reverse: Metal face and return, clear acrylic back. Generally fixed an inch or two from the surface, creating a white or colored halo effect at dark.

Sizes: 6" and up

Aluminum Finishes: Anodized Clear & Color, Polyurethanes
