

MyDay™ is a modular system for displaying multiple types of information and communication, all within a single low-profile aluminum housing. Display options include MarkerBoards, PinBoards, Clocks and more, in a range of standard colors as well as numerous accessory options. With a unique lift and pull technique, MyDay allows display changes or replacements to be made quickly and easily. Initially designed for hospital patient rooms and nurse stations, MyDay also offers ideal solutions for corporate and educational environments.
