8" Post Profiles

2" & 4" Post Profiles

The PolySign Economy Series offers many of the same features and benefits as the other PolySign products, but with a solution that is free from the standard "attached post" look. The post supports are inboard and nest within extruded aluminum sleeves, which are a part of the bonded fiberglass and aluminum sign panel. The end result is a clean, attractive sign that provides outstanding performance and durability at a significantly lower cost than other exterior signs.

### Other Features & Benefits
