architectural sign systems
Since 1966, APCO has been a leader in the design and manufacturing of modular sign systems. Our interior and exterior systems are guiding people through facilities worldwide. We also believe that having a good sign system is a key factor in enhancing the image of a facility. Because of that belief, we strive to provide our customers with the most attractive and functional signs available.

This catalog is an introduction to all of the product lines that we offer, each backed with:

**Commitment:** Complete range of professional services to guide you in any and all phases of your signage project. We offer outstanding customer service for as long as you have your sign system.

**Quality:** Products are manufactured using environmentally friendly materials, built to last, easy to maintain, and backed by written warranties.

**Innovation:** APCO has won nine IDEA awards for product design given by the Industrial Designers Society of America.

We are more than just a sign manufacturer; we are your partner in solving your wayfinding and identification needs for the long run.

APCO is a member of the Industrial Designers Society of America (IDSA), the Society of Environmental Graphic Designers (SEGD), International Facility Management Association (IFMA), and the International Sign Association (ISA).
Web Resources:
APCOSIGNS.COM is an unmatched resource of architectural signing information, and is continually updated to bring you all the information needed to select and use our sign products. Browse through the technical specifications of our products, project showcases, ADA information, or try out our SignWord® Pro sign making software.

Project Consultation & Management:
We are ready to help you in any and all phases of a sign project. Our trained consultants can assist with product selection, planning, and design. Once an order has been produced, our local APCO offices work closely with the headquarters in Atlanta to ensure that the order stays on schedule, is within budget, and meets the highest quality standards.

Manufacturing:
Single source manufacturing provides both total satisfaction and compliance with specifications. Our state-of-the-art facility and centralized manufacturing ensure the highest quality and accuracy available in the industry.

Installation:
One of the most critical aspects of any sign program is installation. Factory trained installation is available at the local level for every product that APCO manufactures. Code compliance and adherence to specifications are assured with an APCO installation team.

Reorders and Sign Maintenance:
Look for flexibility in every APCO system. Prompt and accurate replacements are assured at reasonable costs. Self-lettering options and cou-pon reorders make system maintenance easy and economical and protect your original investment.

The PolySign Multi-Panel Series combines molded fiberglass panels with extruded aluminum components to achieve a modular exterior system that is both attractive and functional. These long lasting, solidly constructed multi panel signs, as well as the other PolySign products on the following pages, will not only effectively guide and direct visitors from the point of entrance, but also enhance the look of the facility's architecture and landscape.

Other Features & Benefits:
- Internally illuminated or non-illuminated
- Photo cell option available for illuminated models
- Curved panel option called SignCurve
- Modular concept with changeable fiberglass panels for easy updates
- Variety of support & post shapes
- Variety of post finishes
- Permanent or semi-permanent graphics
- 7-year limited warranty
- Fade, vandal, & impact resistant
- High quality polyurethane coating
- Wind load engineered to 120 mph
- UL listed

Applications:
- Building Identification (Post, Surface or Wall Mounted)
- Primary Entrance ID Signs for Campus Settings
- Pedestrian & Vehicular Directionals

Ideal for:
Hospitals, Medical Centers, Universities, Office Parks, Churches, Government Facilities, & More.

Multi-Panel Pylon Signs
- Four Sided Pylon 4540, 4640
- Three Sided Pylon 4530, 4630
- Two Sided Pylon 4520, 4620
- Single Sided Surface Mount 4510, 4610

Multi-Panel Base Mount Signs (12" Depth)
- Base Mounted Pylon 4710, 4810
- Base Mounted Sign 4710, 4810
- Base Mounted Multi-column 4710, 4810

Exterior Products
Winner of a Certificate of Recognition for Design Achievement from the Industrial Designers Society of America

Post Panel: 3” x 3” x 8”
The PolySign Single-Panel Series offers all of the same features and benefits of the Multi-Panel Series, but uses only one changeable fiberglass panel.

Other Features & Benefits:
- Internally illuminated & non-illuminated (photo cell option available for illuminated models)
- Curved panel option called SignCurve (2 & 4" only)
- Modular concept with changeable fiberglass panel for easy updates
- Variety of support & post shapes in 2", 4", & 8" profiles
- Variety of post finishes
- Permanent or semi-permanent graphics
- 7-year limited warranty
- Fade, vandal, & impact resistant
- High quality polyurethane coating
- Wind load engineered to 120 mph
- UL listed

Applications:
- Building Identification
- Entrance ID Signs for Campus Settings
- Smaller Pedestrian & Vehicular Directionals

Ideal for:
- Hospitals, Medical Centers, Universities, Office Parks, Churches, Government Facilities, and More.

Base Mount Signs
- 12" Removable Panel
- 8", 12" Removable Panel
- 8", 12" Permanent Panel

Post Mount Signs
- 2", 4", 8" Removable Panel
- 2", 4", 8" Permanent Panel
- 2", 4", Removable Panel

Applications:
- Building Identification
- Entrance ID Signs for Campus Settings
- Smaller Pedestrian & Vehicular Directionals

Ideal for:
- Hospitals, Medical Centers, Universities, Office Parks, Churches, Government Facilities, and More.

The PolySign Single-Panel Series is the winner of the IDEA Award for Design Excellence from the Industrial Designers Society of America.
The PolySign Economy Series offers many of the same features and benefits as the other PolySign products, but with a solution that is free from the standard “attached post” look. The post supports are inbound and nest within extruded aluminum sleeves, which are a part of the bonded fiberglass and aluminum sign panel. The end result is a clean, attractive sign that provides outstanding performance and durability at a significantly lower cost than other exterior signs.

Other Features & Benefits
• Easy installation
• Quick delivery
• Non-illuminated only
• 2-1/2" deep panel sizes in a variety of heights and widths (12” to 72”)
• Permanent or semi-permanent graphics
• 7-year limited warranty
• Fade, vandal, & impact resistant

Economy Series Exploded View

Bonded Fiberglass Faces with Polyurethane Finish

Polyurethane Coated or Anodized/Duraanodic

2” x 2” x 1/8” wall - Aluminum Tubing
Post, Bar & Panel System

The SignBar/SignPanel system consists of heavy extruded aluminum message bars or panels that fit into posts using a unique interlocking detail. With its changeable message bars and panels, wide range of sizes, decorative elements, and durability, SignBar/SignPanel is an effective and attractive exterior system suitable for almost any application.

Other Features & Benefits:
- Modular & interchangeable
- Variety of finishes
- SignPanel available in a removable face option (SignPanel RF) using impact resistant Acrylic SG for a "no frame" look
- Vandal & impact resistant
- Environmentally friendly: recyclable aluminum components
- Reflective & non-reflective graphics
- Optional SignLite down light feature (UL Listed)
- Wind load engineered to 100 mph
- Custom shaped panels
- 5 Year Limited Warranty

Applications:
- Multi-Tenant Buildings
- Exterior Directionals
- Area maps

Ideal for:
Universities, Retail Centers, Medical Centers/Hospitals, Office Buildings, Churches, Government Facilities

3) Circular Decorative Ring
4) Circular Post (Pocket Filler Included)
5) Directional Blade
6) Clamp
7) Tail Detail

**Applications**
- Parking Lot Directionals
- Parking Lot Row Identification
- Street Names at Intersections
- Guide pedestrians and vehicles through multi-building campuses

**Ideal for:**
Universities, Office Parks, Medical Centers, Multi-Winged Facilities, Malls, Shopping Centers

**SignPoint®**
Multi-Directional Sign System

Fingerprint signs are one of the oldest and most understandable forms of directional signs. In today’s complex environments, this simple concept provides one of the best solutions for vehicular and pedestrian traffic.

**Other Features & Benefits:**
- Easy to install and modify
- Two (2) post shapes: Octagonal & Circular
- Three (3) standard directional blade shapes offered in two (2) standard heights and lengths
- Decorative crown panel shapes, post caps, and rings
- Broad range of colors & finishes
- Can be used in interior applications as well
- Environmentally friendly: recyclable aluminum components

**SignPoint Maximizes Design Options with a Strong, Adaptable System Based on a Traditional, Time-Tested Concept.**
The award winning Visulite represents the finest in illuminated directories. Text and graphics appear to suspend in the background through the use of tinted solar glass and negative graphics that are evenly illuminated by fluorescent light. Whether it is wall mounted, pedestal mounted, or recessed in an attractive custom console, Visulite is the most attractive and functional directory on the market.

**Other Features & Benefits:**
- Easily updated Message Strips housed in modular cartridges to prevent light leaks
- Prepaid reorder system with 10-day delivery for Message Strips
- Variety of finishes (including attractive metal finishes)
- Variety of door shapes
- Three (3) lock options
- Gas spring assists with door opening and closing on larger, heavier modules
- UL listed

**Applications:**
- Lobby Directories
- Floor/Wing Directories with floor plans
- Illuminated Photograph Displays (can be used alone or with Message Strips)

**Ideal for:**
Corporate Office Buildings, Multi-Tenant Facilities, Medical Offices, Airports, Visitor Centers, Leasing Centers, Museums

**Exploded View**
- Full Recessed Brass Trimmed Directories in Custom Console
- Semi-Recessed Directory with Chrome Plated Brass Door
- Full Recessed Floating Glass Module in Custom Console

**Door Shapes**
- Radius Door (RD)
- Angle Edge Door (AE)
- Square Door (SD)
- Bevel Door (BD)
- Full Profile 5-1/2” Surface Mounted

**Wall Mounting Options**
- Full Recessed
- Surface Mounted
APCO Engineering Services will Adapt Any Product to Your Specifications. Free Consultation Available Nationwide to Assist in Calculating Size and Capacity Requirements.
As attractive as it is functional, Visulex is a seamless, molded fiberglass cabinet that houses one or any combination of the following: Message Strips, maps, magnetic boards, letter boards, and corkboards. The information displayed is protected by a clear cover that is scuff & vandal resistant.

Other Features & Benefits:
- Cabinet available in standard or custom colors
- Four (4) attractive profiles: Square, Radius, Bevel, & Contour
- Message Strips available in two (2) options:
  1) Molded Plastic: available in two (2) sizes that easily snap in and out for changes
  2) SignBand with Insert Slot: extruded aluminum housing holds paper inserts* that can be updated & changed in-house
- Permanent header & base graphics available
- Variety of trims available for display housing
- Environmentally friendly: recyclable message strips (paper & plastic)

* SignWord Pro compatible (download at www.apcosigns.com)

Applications:
- Lobby Directories
- Floor & Wing Directories and/or Floor Plans
- Campus Maps

Ideal for:
- Schools/Universities, Hospitals/Medical Facilities, Corporate Office Buildings
The award-winning Visulex design is the basis for this low profile aluminum cabinet, which houses either a textured fabric bulletin board (Visulex 40) or changeable strips, which are available in paper or injection molded plastic (Visulex 40 Express). A lift-out, shatterproof acrylic cover and soft radius shape give the Visulex 40 a refreshing clean look, unlike the traditional “framed door” look of other enclosed bulletin boards and directories.

Other Features & Benefits

- Variety of standard sizes & finishes (Custom colors available through special orders.)
- Quick delivery time available on standard sizes and finishes
- Four (4) fabric colors available for bulletin board (Customer may also provide own material.)
- Injection molded Message Strips for directory available in five (5) colors
- User-lettered paper insert option available* for directory
- Environmentally friendly, recyclable aluminum components & message strips (paper and plastic)
- Header and base graphics available

* SignWord Pro compatible (download at www.apcosigns.com)

Applications:

Bulletin Board:
- Employee information stations
- Employee recognition boards
- Announcements

Directory:
- Lobby Directories
- Floor & Wing Directories

Ideal for:

Schools/Universities, Hospitals/Medical Facilities, Corporate Office Buildings

Custom Insert Configurations and Sizes Available Upon Special Order
Visuline® 2300/2400
Interior or Exterior Use

Visuline’s housing is constructed of heavy extruded aluminum. The door, also of aluminum, has a 1/4” clear tempered glass that protects the graphics or messages from the elements. Display options include changeable Message Strips, maps and/or plans, magnetic bulletin boards, corkboards, or any combination of these. Visuline is available as non-illuminated (2300), or can be illuminated using the DisplayLight feature (2400).

Other Features & Benefits:
• Variety of finishes for aluminum exterior
• Variety of door shapes available in an aluminum or polished brass finish
• Plastic Message strips easily reordered and shipped using prepaid system
• Three (3) lock options for door
• Gas Cylinder Assists for opening large doors
• Environmentally friendly: recyclable aluminum components & plastic message strips

Applications:
• Building Directories
• Large Displays
• Donor Boards
• Employee information stations
• Employee recognition

Ideal for:
Schools/Universities, Hospitals/Medical Facilities, Corporate Office Buildings, Sports Stadiums/Facilities, Restaurants, Religious Facilities, Visitors Centers, Museums

Combines the Award-Winning Elements of Visulite with the Versatility of Visulex Display Options

Interactive & Non-Interactive Sign Solutions

**Touchscreen System**
At the simple touch of a screen, iFind provides easy navigation through even the most complex environments and campuses. Equipped with state-of-the-art touchscreen and web-based data management technologies, iFind is easy to use and update.

**Informer System**
Informer, iFind’s non-interactive offering, provides the capability to digitally display events, maps, schedules, building directories, marketing/advertising information, live television and more. As with the Touchscreen System, the Informer can be quickly and easily updated remotely via iFind’s data management software.

**Other Features & Benefits:**
- Intuitive, easily navigated screens
- Simple, menu-driven editing
- Virtually unlimited data capacity
- Standard and custom enclosures available
- Library of standard programs available
- Optional programs and features include:
  - Map printouts
  - Visitor access controls
  - Web links
  - Phone capabilities
  - Braille overlay keyboards
  - Voice capabilities
  - Multi-lingual capabilities
- Standard 1-year warranty
- Lifetime software guarantee
- Software and technology proven successful with over 1,000 US installations

**Ideal for:**
- Hospitals
- Courthouses
- Airports
- Hotels
- Libraries
- Universities
- Corporate Campuses
- Office Buildings
- Convention Centers
- Government Facilities

Free Standing Displays

Stanchion Signs

When displaying information or directing traffic in open areas, or when temporary displays need to be moved frequently, stanchion signs provide the ideal solution. Offered in several different styles, APCO’s range of free-standing signs presents well-designed, modular solutions for every type of environment.

FS100 Series

Constructed of aluminum or brass, Series 100 stanchions offer a traditional look in a variety of sizes and finishes. Display options include acrylic plaques, modular injection molded frames, aluminum poster holders and more.

Finishes: Black or Bronze Anodized, Natural Satin Anodized, Polished Brass, Chrome Plated Brass, Painted (special order)

Arcadia Series 3000

More than signs, Arcadia’s Series 3000 curved-face monoliths are completely portable and modular Information Centers. Display options include laser-printed paper, digital prints, brochure holders, modular message strips, decorative metallic inserts and more.

Finishes: Natural Satin Anodized (recommended), 44+ Standard Painted, Custom colors also available.

FS300 Series

APCO’s newest free standing sign solution, the FS300 Single Post Pedestal is lightweight, fully modular and features a sleek, modern design. Accommodating displays of either APCO’s curved-face Arcadia or low-profile FullView interior sign systems, the FS300 is cost effective and appealing for a wide range of applications. Fast delivery available!

Finishes: Black or Natural Satin Anodized (recommended), 44+ Standard Painted.

1. FS100 w/ RM System Holder & Insert
2. Arcadia 3000 - (17”/430mm width) w/ 8-1/2”x11” Display
3. Arcadia 3000 Series (17”/430mm width) w/ Literature Holder Option
4. FS300 w/ FullView Plaque (Contour End Shapes) w/ 8-1/2”x11” Display
5. Arcadia 3000 Stanchion (11”/280mm width)
6. FS300 w/ FullView Plaque (Radius End Shapes) w/ 11”x17” Display
Arcadia is a patent-protected, extruded aluminum sign system that is formed into a gentle arc and designed to hold a variety of inserts. Appealing to the design community for its limitless design options, Arcadia is equally appealing to the end user for its easy maintenance and updates. Arcadia is available in a variety of sizes and as a free standing stanchion, making it an ideal solution for almost any interior environment.

Other Features & Benefits:
- Sleek contour design for high end look
- Wide range of colors
- Variety of inserts available: factory silkscreen printed or laser printed inserts, injection molded plastic strips, brochure holders, and decorative metal inserts
- Six (6) standard widths ( Heights are variable)
- Multiple mounting methods
- Environmentally friendly, recyclable aluminum components and paper inserts
- ADA compliant

* SignWord Pro compatible (Free download at www.apcosigns.com)

Applications:
- Room Identification
- Personnel/Cubicle Signs
- Directional Signs /Directories
- Brochure Holders
- POP/Merchandising Displays

Ideal for:
- Banks/Financial Institutions
- Corporate/Office Facilities
- Hospitals/Medical Facilities
- Schools/Universities
- Libraries
- Retail Shops and Centers
- Convention Centers
- Meeting Facilities

Worldwide patent protection.

ARFCM  Flush Ceiling
ARPWM  Projecting Wall
ARPCA  Office Panel - Aluminum Clip Attachment
ARPSW - Stainless Wire Attachment
ARPIN - Concealed Pin Attachment to Fabric Surface
ARDSA  Desk Top
A revolutionary new product from APCO, FullView is a low-profile graphic display system, representing the next level in sign systems which are compatible with digital printing output. Environmentally-friendly, tamper resistant and economical, yet design flexible and comprehensive, FullView is without equal.

From point-of-purchase and merchandising displays to facility room identification, ADA signage, directional modules and more, FullView is the perfect choice.

The system is 100% modular and updatable. Inserts are protected by a non-glare acrylic lens and are changed by removing a unique, concealed Locking Pin using a special Magnet and Suction Cup Tool provided by APCO. When inserts are changed frequently, a Top Access Assembly option makes the process fast and easy.

FullView itself is available in a wide range of sizes, colors and finishes to suit virtually every environment, or, may be used in conjunction with APCO’s comprehensive Accord 15 sign system, truly making a Total System Solution.

Features/Benefits
• Low profile, a sleek .420" (10.67mm) depth
• Virtually tamper proof - via concealed locking pin
• Four edge shapes: Radius, Square, Contour & Bevel
• Modular, completely updatable
• Environmentally-friendly
• Fast delivery
• 100% ADA compatible
• Cost-effective
• Aesthetically compatible with APCO’s Accord 15 System
• Wide range of standard sizes & insert options

Ideal For:
• Healthcare Facilities
• Laboratories
• Banks
• Educational Facilities
• Merchandising/POP Displays
• Government Offices

Worldwide patents pending.
Secure, Tamper Proof, Graphic Display System.

Various Mounting Methods

- **Wall Mount**
  - Vinyl Tape Mount
  - Mechanical Fasteners

- **Pin Mount**
  - Concealed Pins for Fabric Surfaces

- **Projecting Wall Mount**

- **Ceiling Mount - Flush or Suspended**

- **Countertop Display**

1. Room ID w/ Clear ADA Paque & Changeable Slide
2. Concealed Pin Mount Office Partition Sign
3. Horizontal Configuration Flush Mount Ceiling Sign w/ Digital Graphic Display
4. Top Access Wall Mount Module w/ Schedule Display
5. Wall Mount with Directional Poster Display
6. Double Sided Counter Sign w/ Optional Literature Holders
7. Standard Wall Mount w/ Large Format Paper Graphic Map & Directory
8. Top Access Countertop Module w/ Menu Display
Recipient of numerous awards, Accord 15 remains one of the most innovative sign systems on the market. A comprehensive system, Accord 15 is ideal for virtually any signage application, from simple personnel signs to complex directional and directories. The system is comprised of lightweight dimensional aluminum bands which snap onto injection molded End Clips for smaller signs, or fasten into vertical aluminum tracks (Side Track configuration) for larger signs. The aluminum message bands are easy to remove using a special tool, making Accord 15 easy to maintain and update. Message bands also feature an Insert Slot option to house paper or ADA-compliant messages.

Other Features & Benefits
- Design flexibility
- Broad range of colors
- Inserts can be silk-screened aluminum bands or laser printed paper strips* that work w/ the Insert Slot feature
- Five (5) Side Track profiles: Square, Bevel, Radius, ThinLine, & Contour
- Four (4) End Clip profiles: Square, Bevel, Radius, & Contour
- Easy installation and reorder system
- Unique decorative elements available
- Multiple mounting methods
- Environmentally friendly: recyclable aluminum plastic components and paper inserts

* SignWord Pro compatible (Free download at www.apcosigns.com)

Applications:
- Room Identification
- Personnel/Cubicle Signs
- Directional Signs/Directories
- Evacuation Plans

Ideal for:
- Banks/Financial Institutions, Corporate/Office Facilities, Hospitals, Schools & Universities, Libraries

Worldwide patent protection.

* Not Available as integral color for Contour End Clips
Accord® Express
Modular Sign System

A sub-series of the comprehensive Accord 15 system (page 21), Accord Express offers a quality sign solution for every budget. The integrally colored, injection molded plastic components of Express can be used alone to create a small family of signs or can be used in conjunction with the aluminum Accord 15 system to create a complete signage program.

Other Features & Benefits:
- Off-the-shelf, cost-effective components for fast delivery times
- Molded of automotive grade plastic that is resistant to fading and chipping
- Plastic bands offered in six (6) sizes
- Opaque band option available in five (5) colors: Black, Bone White, Architectural Brown, Putty, & Pearl Grey
- Clear Band option available for paper inserts*
- Multiple mounting methods
- Environmentally friendly: recyclable paper inserts & reusable components
- ADA compliant
- Compatible with the Visulex 40 Directory (page 12)

* SignWord Pro compatible (Free download at www.apcosigns.com)

Applications:
- Personnel signs
- Room identification
- Secondary Directories
- Directory Message Strips (see Visulex 40 Express - page 12)

Ideal for:
- Corporate/Office Facilities
- Schools
- Hospitals

Applications:
- Personnel signs
- Room identification
- Secondary Directories
- Directory Message Strips (see Visulex 40 Express - page 12)

Ideal for:
- Corporate/Office Facilities
- Schools
- Hospitals

Create Paper Inserts In-House with SignWord Pro Software!
The original modular sign system, IM/SignMatch is a system of injection molded holders and interchangeable sign inserts that always match and fit. With over 95 components and unlimited imprint and graphic options, the system is extremely easy to order, install, and maintain.

Other Features & Benefits:
- Molded of durable automotive grade plastic that is resistant to fading and chipping
- Holders and inserts in eight standard colors
- Plastic inserts available with unlimited graphics colors
- Clear lens cover available for paper insert option*
- Radius & square corner options
- Square & bevel edge shapes
- Available in a variety of standard sizes
- Multiple mounting methods
- Environmentally friendly: recyclable paper inserts & reusable components
- ADA Compliant

* SignWord Pro compatible (Free download at www.apcosigns.com)

Applications:
- Room Identification
- Personnel/Cubicle Signs
- Evacuation Plans

Ideal for:
- Banks/Financial Institutions
- Corporate/Office Facilities
- Hospitals
- Schools & Universities
- Libraries

Create Paper Inserts In-House with SignWord Pro Software!
Overhead Sign Solutions

With Six Overhead Sign Products APCO has a Solution for Every Condition & Budget.

1. Arcadia Overhead
   Interior/Exterior
   APCO’s Arcadia system (pgs 17-18) offers an ideal solution for ceiling signs, both wire suspended and flush attachment. Size, insert, graphic and configuration options are vast.

2. FullView Overhead
   Interior
   APCO’s FullView system (pgs 19-20) presents a low profile, modular solution for ceiling signs, featuring aluminum edge profiles and interchangeable graphic inserts. A wide range of sizes, graphic options and styles are available, for both suspended wire and flush attachment.

3. Standard Overhead
   Interior
   Constructed from durable, lightweight expanded plastic sheet and featuring a range of unique attachment options, Standard Overhead Modules offer a cost-effective, practical solution for ceiling sign applications.

4. Universal Ceiling Fixture
   Interior/Exterior
   Called “Universal” because it addresses a myriad of ceiling attachment possibilities and challenges, the aluminum UCF is compatible as a mounting option for many materials, including the majority of APCO’s interior sign systems such as Arcadia, FullView, and Accord 15. Available in a Square or Circular shape.

5. Fiberglass Panel Overhead
   Exterior
   Fiberglass panels are bonded to an extruded aluminum frame, resulting in a finished module that is seamless, durable and impact resistant.

6. Aluminum Panel Overhead
   Exterior
   1” thick panel frames with .060” aluminum faces are attached to an extruded post profile of the SignBar/SignPanel modular system for suspended wire mounting.

Metal Graphics - Fabricated
Fabricated metal graphics are ideally suited for bold, deep letter forms. Offered in a wide variety of metals, colors, finishes, and thicknesses.

Material Options: Aluminum, Brass, Bronze, Copper, Stainless Steel & Painted Metal.
Sizes Range: 3" Up
Thickness Range: 3/8" to 24"
Finishes: Satin #4 & #6, Mirror #8, Chrome Plate, Oxidized, Patinas, Polyurethanes, Anodized Clear & Color, Custom Metals, Textures and Patterns.

Metal Graphics - Precision Cut
Precision cut from solid metal plate, using state-of-the-art technology with hand-crafted finishes. Cut letters are an excellent option when unique materials, finishes, and ornate or intricate forms are required.

Material Options: Aluminum, Brass, Bronze.
Sizes Range: 1" to 24"
Thickness Range: 1/8" to 1/2"

Metal Letters - Cast
Letters are hand cast from molten metal, in a broad range of standard sizes and typestyles. This process is used to achieve prismatic faces and shapes that are not otherwise practical.

Material Options: Aluminum, Brass, Bronze.
Sizes Range: 1" to 24"
Thickness Range: 1/8" to 2"
Finishes: Satin, Polished, Oxidized, Anodized Clear & Color.

Channel Letters
Channel Letters incorporate Neon or LED light sources and are available in two styles.
Standard: U-channel base with white or colored acrylic faces.
Reverse: Metal face and return, clear acrylic back. Generally fixed an inch or two from the surface, creating a white or colored neon halo effect at dark.
Sizes: 8" and up
Aluminum Finishes: Anodized Clear & Color, Polyurethanes
