- 3M "Dual Lock" Fastener *(Included)*
- Keyed Plunger Lock

Glazing

- Clear Tempered Safety Glass
(See Note 2)

Cabinet Back Plate

- Aluminum *(Std. for Anodized Finishes)*
- FRP *(Std. for Exposed Back Plate with Painted Finish)*

Note 1

Display area is calculated by subtracting 10-13/16" from cabinet height and 4-1/16" from cabinet width.

$$\frac{\text{Cabinet Height}}{\text{Cabinet Height}} - 10 \frac{13}{16}'' = \frac{\text{Display Height}}{\text{Display Height}} \quad \frac{\text{Cabinet Width}}{\text{Cabinet Width}} - 4 \frac{1}{16}'' = \frac{\text{Display Width}}{\text{Display Width}}$$

Note 2

Clear glass has a natural slight green tint. Though typically unnoticeable, it may affect the appearance of certain colors. Composite glazing (i.e. Acrylic, Lexan, etc.) is not used. These materials are not as strong as tempered glass, they are more vulnerable to scratches and expansion enhances imperfections in their natural uneven and wavy surfaces.

Note 3

All display components are available for interior use. Refer to Product Technical Manual for those components approved for exterior applications.

Finishes

Door

- Natural Satin Anodized
- 313 Dark Bronze Anodized
- 315 Black Anodized
- Other _____

Housing

- Natural Satin Anodized
- 313 Dark Bronze Anodized
- 315 Black Anodized
