

FullView™

Graphic Display System

FullView is a low-profile, modular graphic display system, ideal for a wide range of signage and display solutions, from point-of-purchase posters to facility room identification and directional signs.

This sleek, ADA compatible product is ideal for, but not limited to, user lettered paper displays or digital prints, housed behind a non-glare acrylic lens, promoting easy insert changeability while retaining a high degree of vandal resistance.

The patent-pending FullView offers four aluminum edge shape options and a wide range of standard sizes, colors and finishes to suit virtually every environment.
