Overview

Aspire is a 2-part extruded aluminum capture rail system with clean lines and soft radius edges.

Its flexibility allows for display panels from 1/8" (3mm) to 1/4" (6mm) thickness, including aluminum and frosted or painted acrylic, in rectangular or virtually any custom shape.

Although panel capture is minimal, Aspire's unique design offers a high degree of tamper resistance, without the use of any exposed fasteners. At the same time, panels can be easily removed for updating, cleaning or painting the wall surface.

Installation and panel replacements are fast and easy, with a positive fit guaranteed. All Aspire panels are computer cut, and profiles feature a precision panel alignment detail to eliminate guess work with panel placement.

Ideal for Hospitality, Senior Living, Multi Family Housing, Corporate, Museums, and Donor Recognition.

Features

- 2 Part Extruded Aluminum Assembly
Satin Anodized (Standard) or Painted Finish
- Approximately 5/8" Overall Depth
- Single Bottom Bracket Optional for Smaller Size Panels
- Accommodates 1/8" to 1/4" Thick Display Panels
Rectangular (Standard) or Custom Shapes
- Tamper Resistant Yet Easily Updatable Displays
- Windows for Paper Inserts Available in Certain Sizes
Letter, Tabloid and Personnel Signs
- Standard Panel/Display Widths: 4", 6", 8 1/2", 11", & 17"
- Concealed Fasteners

Single-Bracket Assembly

Signs Up To & Including 4"h
(Bracket Connection via Filament/Cord)

Signs Larger Than 4"h
(Bracket Connection via Set Screw)

Double-Bracket Assembly

I. Display Options

Frosted Acrylic (1/4")

1. with a Painted Subsurface Background Color

- 1st Surface Flatbed-Print Graphics and/or DP-Tactile ADA
- Clear/Non-Painted Edges

AS-ACFA1
(w/ Single Bracket)

AS-ACFA2
(w/ Double Bracket)

AS-ACFA1-DPT
(w/ Single Bracket)
