## Arrows

As a guideline, the size of arrows or circles with arrows is usually 125% larger than the cap height of accompanying messages. Arrow size is specified using the outside dimension. For A111 & A112 arrows, specify circle diameter. All other arrows measure tip to tip.

## You Are Here Symbols

Typically used on maps to identify location of the map user. You Are Here symbols are usually colored red depending on the color scheme of the map.

Symbol size is always specified by height, indicate the height, but consider horizontal area to insure adequate left and right margins.
